

BERT COX MEMORIAL (GILL) CUP COMPETITION

This is an inter-Club competition open to all affiliated clubs and there shall be no limit to the number of sides a Club may enter.

A Club side shall consist of two teams of 4 players for each match and may include any eight bona fide members of the Club making the entry, but players must play for the same club through which they enter any other County competition.

No player may play for more than one side entered by his Club in the competition in the same season.

Details of the draw for play are published each year in the Draw Sheet Addendum to the Associations' Diary and scorecards are sent direct to the appropriate Club Secretaries. Email may be used, provided the club sends surnames of each player together with the final score for each rink.

Arrangements shall be made by the clubs as for other competitions, except that the match shall be played by one of the Fours on each of the Home and Away greens, playing at the same time. The result shall be based on the aggregate score and an extra end must be played on the CHALLENGERS green. The score on this additional end will be used only in the case of a tie resulting in the completion of 21 ends by each team. Responsibility for seeing that this is done will rest on both sides.

Where two clubs using the same green for play are drawn to play each other in this competition, the challenging club will indicate before the match commences which of the clubs two fours will play the extra end.

In the event of a tie resulting in completion of 21 ends by each team at all the selected Green Stages of the competition, Extra end will be played by one Four only. The Challenger Clubs receive two WHITE Scorecards or communication by email of arrangements for play. The Challengee Clubs receive two GREEN Scorecards or communication by email of arrangements for play. The extra end will be played by one four only, to be decided by the toss of a coin prior to commencement of the game.
